Akule in the Harbor Yesterday.

### CHINAMEN CAPTURE WHOLE SCHOOL

STEAMER MONOCACY LOOKED UPON WITH TERROR BY CHINESE.

Yesterday Was a Half Holiday Along the Front-The Schoon-

er Albion Is Said to Be

a Wonder.

An immense catch of akule, in fact, the largest catch of fish ever known here since white occupation, was made yesterday morning in the harbor opposite the new railroad whart. The catch was made by two Chinamen in two boats and in the presence of at

least 200 people.

A big school of akule came into the harber. it was observed by the Chinamen, who immediately unreeled a large net and commenced encircling the fish with it. They got the akule between the wharf and a shoal and the capture cargo, 1,041,516 lbs sugar, value \$45. was complete. The net was alive with 578.03; 29,079 lbs coffee. value \$3,557.29;

the finny beauties when it was lifted. The boats were each at least twenty-five teet long. When the fish were bagged they filled the boats to the gun-

The akuis were of line and nearly uniform size, averaging from six to \$30, 87.05; 1,920 lbs coffee, value \$192; eight inches in length. It is estimated that nearly 10,000 axule were caught. The prevailing price of akule in the market is six for a quarter. This morning the readers of The Republican who like akule will probably purchase twelve or lifteen for a quarter.

### ALBION A WONDER,

Men along the front who know the Kimball and the schooner Albion, which have been chartered by the new market company to carry meat trom San Francisco to this port, say that W ESTERN SUGAR REFINING CO., San Francisco to this port, say that the Kimban is all right, but that the Albion can hardly get out of her own way. She has been known to make five knots with the wind and a caim sea, but this is about her record. ste Philadelphia, Penn., U. S. A. has but one boiler and that will just about carry steam enough to blow her whistie. Like the old Kaimiloa, whenever she blows her whistle her propeller stops.

### STEAMERS COMING

The story of the coming of the Great Northern has broken out again. It has been denied as often as the coming of the steamers has been heraided and it is known that as long as the British Gray's Harbor; lumber thence to Ka-North American line has the contract hului, by Chas. Nelson. with the Great Northern that they now not touch here. Some time ago a man by S. E. Slade Lumber Co. in this town started to open an office, so sure was he the steamers were com- pass and mase to Honorana, by Atexing right here. He said that he had ander & Baldwin, Ltd. the agency, but as yet the coming of these steamers is still only in the newspapers. The Waterhouse line, of which M. J. Bissell is local agent, will have steamers running here in place of the Bioemfontein within a couple of months. American steamers to take Reuch, master, 19 days from Port the place of the ships iroquois and Townsend with lumber for H. Hack-John Currier are being negotiated for and it is expected that the next mail will bring definite news of the sailing dates of the vessels.

## HALF HOLIDAY.

Yesterday was a half holiday along the whole front. Everybody went to the boat races. Several of the Kauai steamers arrived in the morning and the Kinau got alongside the wharf at at \$245,724.41. a little after noon. The Nippon Maru ieft for the coast at 5 o'clock, just as it was beginning to be light. She was well off Diamond Head by sunrise.

The Kitauea Hou from Kahului came in last evening without any freight. She reports the Yosemite leaving kahului as she came away and several ships in the harber. The Wachusett had not arrived up to the time the Kilauea left. She is now 117 days out from Newcastie with coal for Kahului. Paauhau, Papaloa; stmr Hawaii, 5

## AFRAID OF MONOCACY.

A story comes in a letter from former officer on the Concord that the most formidable vessel of all the ailled fleets in Chinese waters is the old sidewheeler Monocacy. She is formidable in the eyes of the Chinese, to whom she has been a familiar sight these many years. They think her endowed with supernatural powers and are very much afraid of her, although they have Request That the Harbor be Dredged known her so long. It seems that in 1894 there was a hig flood in the dis-trict where the Monocacy was stationed and when the waters rose the old Monand when the waters rose the old Mon-ocacy broke loose from her moorings in the night and in the morning she ship Company's new steamers can dock in the night and in the morning she was found quite a distance inland. The flood had covered the whole country and the Monocacy, which draws but little water, was enabled with her aide wheels to navigate over quite an area of what was usually dry land. From this there began to circulate stories that the old ship was an instrument of war that could be used on land when occasion required and at the present time the natives stand in awe of the surface. Attorney General Dole concurred with Mr. Lansing in his opinion.

for the Sterra-Mr. Lansing May

the Pilhonon tract near Hilo. They asked that the government clear the land or allow them the water privileges of the same piece. It was decided that action be deferred on the matter until an answer should come from Washington in reply to his letter, speaking of water rights and privileges.

F. M. Hatch spoke on the subject of amendments to the charters of Ewa and Kobala plantations, giving those corporations the right to acquire a majority of the stock of other corporations. It appears that Ewa has already acquired a controlling interest in Apokas plantation, and Kobals planthe Pilhonos tract new Hilo, They

## \*\*\*\*\*\*\*\*\*\* Of Interest to the Ladies...

Few women care for the hair as they should. When the hair begins to come out they are alarmed. It would be much better if they give it more attention when it is in a healthy condition. The first requisite in the care of the hair is a GOOD TONIC. Just the kind we keep. Our Hair Tonic will kill dandruff. Stop the hair from falling out. Cure itchness of the scalp. Make the hair soft and glossy. It keeps the hair and scalp in a healthy condition. Try a bettle and give it a trial.
